Learn how to edit ERD shapes

To **manually customize this ERD**:

1. Double-click on any text in an entity shape and **add/edit text** by typing.
2. Click on an entity shape and **toggle the amount of fields** using the advanced shape bar at the top of the canvas.
3. **Add and remove lines** to show relationships between entities.
4. To **update cardinality**, click on a line and then click "Endpoint" on the properties bar at the top of the canvas.

To **automatically create your own ERD**:

1. Click "[↗ Import Data](#)" in the Entity Relationship shape library to the left of the canvas.
